

ALL AMERICAN IS OPEN, SHIPPING, AND SAFE!

We are open for business, shipping all around the country and our staff is safe. Our team proactively went remote prior to the "shelter in place" mandate. Thankfully, All American Trucking & Transport is a technology-driven company so this has been a smooth and successful transition.

Our terminal at 1590 Rollins Rd, Burlingame, CA has one team member who is available to receive and release vehicles to our customers and drivers. They are equipped with gloves and hand sanitizer; all interactions with customers/drivers are taking place outside at a safe distance.

We kindly ask that customers dropping their vehicles off do anything within their power to sanitize the inside of the vehicle.

Our team is safe, fully intact, and functioning normally. We encourage you to reach out to us with any questions, and we look forward to continuing to meet your transportation needs.

What can I do to have a safe auto transport?

- Sanitize your vehicle (keys too) and practice social distancing during any in-person interactions.
- If you are unable to receive or release a vehicle for pick-up/delivery, please let our customer service team know. We will work with you to find a good alternative.
- Flying vs. driving your vehicle considerations: Typically there are fewer in-person interactions involved in shipping your vehicle versus driving it cross-country. Consider multiple stops at hotels, gas stations, restaurants, etc.
- Remember that hard surfaces are one of the biggest risk factors for contamination. Sanitize and protect yourself accordingly!
